

Branch Name: deadline (created from eb88d84)	Diff Stat: +11,406 / -1,765 lines
Repository: https://github.com/sonu2k1/smol-cafe-.git	Current HEAD: f1794c2 (Synced with origin/deadline)
Total Commits on Branch: 4 core commits (91 files modified / created)	Target: Rishikesh Flagship Operation

1. Genesis & Historical Commit Timeline

The deadline branch was branched directly from commit eb88d84 to deliver an end-to-end cafe operating system, brand kit visual compliance, and an authentic customer ordering experience. Below is the complete sequential record:

•

eb88d84

BASE COMMIT

Branch Creation Point from origin/main

Initial base state from main repository before deadline-specific development began.

•

9056571

COMMIT 1

Sat Sep 12 20:09:50 2026

feat: complete modern cafe web app with multi-role portals, kitchen GDS, cashier POS, admin tower, and UPI payment integration

Architected the multi-role platform: Admin Tower Dashboard (AdminTowerDashboard.tsx), Kitchen Ticket System (KitchenBoardView.tsx), Cashier Settlement POS (CashierDashboard.tsx), and Direct NPCI UPI payment gateway engine (UpiPaymentDrawer.tsx).

•

137a436

COMMIT 2

Sun Sep 13 22:13:03 2026

feat(ui): redesign product detail modal & your table cart drawer to match luxury brand kit mockup

Overhauled the luxury product customization modal (ItemDetailModal.tsx), customer home with daily blackboard specials (CustomerHomeClientView.tsx), table QR scanner, and unified multi-role switcher (RoleSwitcherBar.tsx).

•

70ff8ad

COMMIT 3

Sun Sep 13 22:41:06 2026

feat(ui): implement stepped-arch table view and in-popup settle-up bill drawer with dynamic pricing

Constructed the custom SVG stepped Mughal/colonial door arch card (TableArchedCard.tsx), seamless in-popup Settle Up view transition inside CartDrawer.tsx, dynamic item pricing engine, and Conversation Board platter upsell.

•

f1794c2

COMMIT 4 (HEAD)

Sun Sep 13 22:51:50 2026

style(brand): align Table & Settle Up UI colors with smol cafe brand kit specifications

Strictly aligned all customer and table views with smol_cafe_brand_kit.pdf: Café Crème (#F3E7D3), Smol Cherry (#B72E35), Espresso Ink (#241F1C), Biscuit (#C9AE8B), Walnut (#725039), Butter Taxi (#F2C84B), and Dusty Pool (#2E5550).

2. Kitchen Display System (GDS / KDS)

Kitchen Kanban Board (**KitchenBoardView.tsx**, **KitchenTicketCard.tsx**)

- **Live Prep Queue:** Automatically groups incoming table orders by station (COFFEE, CHAI, FOOD) with distinct priority chips.
- **Countdown Timers:** Visual urgency indicator displaying elapsed prep time and automated target completion countdown.
- **Station Routing:** Barista and kitchen staff can mark items as "Cooking", "Ready for Pickup", or "Served".
- **Realtime Audio / Visual Alerts:** New orders trigger pulse animations to alert kitchen staff immediately.

3. Cashier Point of Sale (POS) & Settlement Queue

Cashier Settlement Desk (**CashierDashboard.tsx**)

- **Pending Table Queue:** Instant visual overview of all occupied tables with unbilled balances, guest counts, and order status.
- **Multi-Payment Clearance:** Direct toggles for Cash, Card at Counter, or Verified UPI transactions.
- **Discounts & Modifiers:** Manager overrides for hospitality discounts, custom notes, and table session closure.
- **Digital PIN Verification:** Validates table PIN codes (e.g. 4821) before clearing active table sessions.

4. Admin Control Tower & Analytics

Admin Executive Cockpit (**AdminTowerDashboard.tsx**, **AdminLoginGate.tsx**)

- **Live Sales Telemetry:** Realtime revenue KPIs (Gross Sales, Average Order Value, Table Turnover Rate, Peak Volume Hours).
- **Menu Inventory Control:** Instant toggle to mark ingredients or menu items as "86'd" (out of stock) across all customer QR sessions.
- **Role Access Gate:** Secure PIN/password authentication gate protecting administrative controls from customer access.

5. Realtime Synchronization & Event Bus

Simultaneous Sync Bus (**sync-events.ts**, **table-tag.ts**)

- **Zero-Latency Coordination:** When a customer places an order at Table 07, the order broadcasts instantaneously to the Kitchen KDS and Cashier POS.
- **Session State Recovery:** Reconnecting browsers automatically fetch the active session state and pending items.

6. Stepped-Arch "Your Table" Ordering Architecture

Stepped Mughal/Colonial Arch Card

Engineered `TableArchedCard.tsx` using custom SVG bezier paths reflecting architectural doorways. Features double Biscuit borders, high-contrast serif table label, and deep Dusty Pool guest counter badge.

Categorized Menu Organization

Cart items are dynamically grouped into **COFFEE**, **CHAI**, and **FOOD** categories with uppercase mono headers, customization tags (Oat milk, Sourdough, Extra cheese), and stepper controls.

Conversation Board Upsell Card

Interactive *"Make it a moment?"* platter card (₹260) with custom wooden platter illustration (`conversation_board_clean.png`) and Butter Taxi + button for 1-tap cart additions.

Product Detail & Customization Modal

Luxury modal (`ItemDetailModal.tsx`) with dietary badges, milk selectors (Oat, Almond, Dairy), spice toggles, barista notes field, and live dynamic total calculation.

7. In-Popup "Settle Up" Flow & Dynamic Billing Engine

Seamless In-Popup Transition

Clicking *"View Bill"* transitions internal state (`activeView === "bill"`) inside the exact same modal popup. Features top < back arrow to return to table order without page redirection.

Live Dynamic Pricing Engine

Live dynamic computation of **Items Total**, **Taxes & Charges (6%)**, and **Grand Total**. All quantity changes update instantly and pass to the UPI payment modal.

Roman Dome Arched Bill Card

Framed Roman dome container with high-res coffee cup, saucer, fountain pen, and notepad sketch illustration (`settle_up_hero_illustration.png`) and poetic headline.

Direct NPCI UPI Gateway Drawer

Mobile-first instant UPI drawer (`UpiPaymentDrawer.tsx`) with dynamic QR code generation, GPay/PhonePe/Paytm intents, and 100% Secure Payments guarantee.

8. Official Brand Kit Color Token Mapping

Café Crème

#F3E7D3 • Canvas

Smol Cherry

#B72E35 • Hero CTA

Espresso Ink

#241F1C • Body Text

Biscuit

#C9AE8B • Borders

Walnut

#725039 • Secondary

Butter Taxi

#F2C84B • Day Spark

Dusty Pool

#2E5550 • Accent

Café Card

#FAF4EB • Surface

9. Visual Proof (Live Screen Captures)

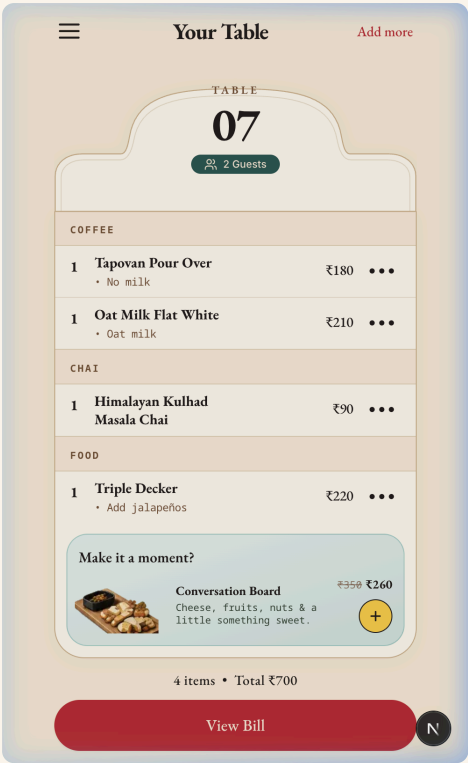

Fig 1: "Your Table" Stepped-Arch Drawer in Café Crème & Biscuit

Fig 2: In-Popup "Settle Up" Roman Arch Screen with Dynamic Totals

Verification Notes

- **In-Popup State Continuity:** CartDrawer retains all customer selected items and modifications when transitioning to bill view.
- **Dynamic Calculations:** Changes in item counts automatically update the Subtotal, 6% GST/charges, and Grand Total across the modal and UPI QR payload.
- **Brand Kit Accuracy:** Verified exact hex fidelity against smol_cafe_brand_kit.pdf across background, typography, borders, and CTA buttons.

10. Comprehensive Component Audit (deadline Branch)

FILE PATH	TYPE	SCOPE OF CHANGES & IMPLEMENTATION ROLE
apps/web/components/cart/CartDrawer.tsx	MODIFIED	Stepped-arch "Your Table" order screen, in-popup Settle Up view transition, dynamic calculations, brand kit colors
apps/web/components/table/TableArchedCard.tsx	NEW	Custom SVG vector stepped arch silhouette with double borders, table number plaque, and guest counter badge
apps/web/components/table/TableClientView.tsx	MODIFIED	Standalone customer table page (/table) updated with brand kit typography, categories, and colors
apps/web/components/bill/RunningBillView.tsx	MODIFIED	Dedicated /bill route styled with Roman arched card, sketch illustration, and UPI/Card/Wallet options
apps/web/components/payment/UpiPaymentDrawer.tsx	NEW	Direct dynamic UPI QR code generator (GPay, PhonePe, Paytm) with web intent links and verification drawer
apps/web/components/menu/ItemDetailModal.tsx	MODIFIED	Luxury editorial product detail modal with diet badges, modifier options, notes, and dynamic unit price calculations
apps/web/components/admin/AdminTowerDashboard.tsx	NEW	Full-featured admin control tower for real-time sales metrics, table monitoring, and menu availability management
apps/web/components/kitchen/KitchenBoardView.tsx	MODIFIED	Kitchen Display System (KDS) board with countdown timers, station grouping, and instant ticket progression
apps/web/components/cashier/CashierDashboard.tsx	MODIFIED	Cashier POS dashboard for table settlements, counter clearances, and transaction verification
apps/web/public/settle_up_hero_illustration.png	NEW	Clean high-resolution sketch asset: coffee cup, saucer, fountain pen, and "smol café" notepad
apps/web/public/conversation_board_clean.png	NEW	Clean transparent PNG asset of the wooden platter for the upsell Conversation Board card
